- Galvanized 19" rails
- RoHS compliant, UL and Gost-R certified
- The network/server cabinet is supplied fully assembled
- Additional models available on request

Description

Wirewin® steel network cabinets offer an excellent price/performance ratio and are suitable for high-density applications as well as data center applications. Their modular design makes them a sound investment for the future. The cabinets offer various options for routing copper and fiber optic cabling and enable easy installation while still providing maximum capacity for high-density applications! Rear and side panels are easy to remove, cable entry is possible through 3 openings, depth-adjustable profile rails (2 mounting levels).
