- Lifetime warranty through Lightwin® Lifetime Warranty

Description

All LIGHTWIN® fiber optic patch cable adapters are manufactured using special processing methods to create a high-quality product.

These adapters are suitable for all fiber optic applications in a wide range of telecommunications environments. Typical applications include patch panels in data centers, server or network cabinets, as well as FTTH (Fiber to the Home).

By using special alignment sleeves for LIGHTWIN® multimode adapters and specially selected alignment sleeves with the tightest tolerances for LIGHTWIN® singlemode adapters, the highest fitting accuracy is achieved.

Further advantages of LIGHTWIN® patch cable adapters:

- Lifetime warranty (LIGHTWIN® Lifetime Warranty)
- 100% tested
- Use of special alignment sleeves with the tightest tolerances
- All connector combinations available at short notice on request
