LWC-SFP-SFP

Gigabit Media Converter SFP to SFP

Features

- Lightwin Gigabit SFP converter
- Seamlessly connects multimode and singlemode links
- External power supply included
- Compatible with UNI-coded SFPs
- Compatible with Lightwin chassis
- Transmission: Multimode/Singlemode
- Data rate: 1000 Mb/s
- Connections: 2x Gigabit SFP

Description

Lightwin SFP converters provide the perfect solution for use with a wide range of Gigabit SFP types such as multimode, singlemode and WDM for short and long distances. These converters make it possible to seamlessly connect a multimode link with a singlemode link. Lightwin high-quality SFP media converters offer important advantages compared with alternative no-name converters. All Lightwin converters support UNI-coded SFPs and therefore require no special coding. All Lightwin converters are supplied with an external power supply and can be used with the optional Lightwin chassis.
