

LWC 10/100/1000-SFP

Gigabit Media Converter 10/100/1000Base-T to SFP

Features

- Lightwin Gigabit SFP converter
- External power supply included
- Compatible with UNI-coded SFPs
- Compatible with Lightwin chassis
- Transmission: Multimode/Singlemode
- Data rate: 1000 Mb/s
- Connections: 1x Gigabit SFP, 1x RJ45

Description

Lightwin SFP converters provide the perfect solution for use with a wide variety of Gigabit SFP types such as multimode, singlemode and WDM for short and long distances. Lightwin high-quality SFP media converters offer important advantages compared with alternative no-name converters. All Lightwin converters support 10/100/1000Base-T auto-negotiation and Auto-MDI/MDI-X. All Lightwin converters are supplied with an external power supply and can be used with the optional Lightwin chassis.
